

## HERITAGE CERTIFICATE APPLICATION FORM

Please complete as fully as possible, and print clearly using  
BLOCK CAPITALS

### HERITAGE TRUST

Thank you for your enquiry requesting information about your Jaguar or Daimler vehicle.

Since 1931 when Jaguar began making the first SS1 cars and until the 1980s, every car produced was individually recorded with a hand-written entry in large ledgers. When this system was eventually abandoned in the computer age, these original ledgers were turned over to the Archive of the Jaguar Daimler Heritage Trust.

Using these invaluable original records, the Jaguar Heritage Trust now offers owners of classic Jaguar and Daimler cars our Production Record Trace service. By completing this form, you can apply for a Heritage Certificate for your car.

The Certificate gives all the relevant information on your car taken from the original records. It will confirm the original numbers and colour scheme, give the dates of build and despatch, as well as the original destination of the car. Where recorded, the name of the first owner and the original registration mark are also included on the Certificate. We offer this service for all cars which are more than ten years old.

#### **The service is available for:**

- Swallow bodied cars (Austin Seven, Wolseley Hornet and Standard) 1931 – 1933
- SS Cars 1931 – 1936
- SS Jaguar cars 1935 – 1940
- Jaguar cars from 1945 onwards
- Daimler cars from circa 1959 onwards

(there is also limited information available for some earlier Daimler cars, from circa 1953 onwards)

We carry out the research from a chassis number and/or other number(s), or other information which has been quoted to us by a client. We cannot accept liability in cases where incorrect numbers have been quoted by clients, even if this leads to the wrong car being researched.

Where a Heritage Certificate is applied for with no supporting official documentation, the Certificate is only issued with the numbers as provided on the application form. Where numbers are not provided, we enter "Number not supplied by enquirer" and if numbers on the application do not match those in the original records, the Certificate will show "Number supplied by enquirer is not original". However, if an application form is accompanied by a copy of the V5C/Title document, any missing or non-original numbers will be replaced by the numbers from the build records, prefaced by the word "Originally". Please note that we always reserve the right to refuse to issue a certificate.

While we take every care to ensure that we supply the correct information, neither the Jaguar Heritage Trust nor any associated company will be held liable for errors or omissions or the consequences thereof.

A Heritage Certificate does not in itself constitute proof of the identity, provenance, originality or present condition of a particular car. A Heritage Certificate is not proof of ownership of a car.

Enquiries must be pre-paid; please complete the payments section. The cost of the Heritage Certificate is £45.00 (worldwide, including VAT and postage). A refund will be made if we cannot issue a certificate for a car.

We reserve the right to amend our fees without notice at any time. The fee payable will be the fee which is current at the time of the application.

The certificates are A4 size (297mm x 210mm) and are posted by first class or air mail in hardback envelopes. Please allow 28 days for delivery.

Additional or replacement certificates are available at a cost of £21.00 each. To obtain an additional or replacement certificate, please forward the original certificate or a photocopy thereof.
